

## MARK YOUR CALENDAR TODAY TO ATTEND:

A **FREE** educational workshop developed by:  
The National Renewable Energy Laboratory (NREL)  
in partnership with the  
U.S. Department of Energy.

**Fueling Your Alternative Fuel Vehicle Fleet:  
Partnering EPA Act Mandated Fleets and Clean Cities Stakeholders  
to Deploy More Alternative Fuels**

**WHEN: September 16, 2010, San Francisco, CA**

**WHERE: Ferry Building, Port Commission Hearing Room, 2nd Floor,  
On the Embarcadero between Pier 1 and the Agriculture Building**

**HOSTED BY:**

### WHO SHOULD ATTEND?

If you are an EPA Act-mandated or voluntary fleet that is serious about finding alternative fuel infrastructure solutions through working with other like-minded fleets and fuel interests, then don't miss this event's last stop in California. As a direct result of similar workshops, held at several sites across the nation, fleet-to-fleet and fuel-to-fuel provider partnerships are being implemented. You will leave this workshop with all the information, tools, and contacts necessary to enhance opportunities to achieve compliance and expand deployment of alternative fuel vehicles (AFVs) and alternative fuels.

### This event will:

- Educate stakeholders on legal AFV and alternative fuel obligations of certain fleets;
- Provide an overview of available alternative fuels and AFVs;
- Provide detailed maps of alternative fuel stations and fleets in the Northern California area;
- Encourage acquisition of AFVs and associated fuels;
- Provide direct opportunities for fleets and fuel supplier's contact in order to solve technical and logistical hurdles preventing fueling infrastructure collaboration among stakeholders.

### Past workshops attendee comments:

- "Great event! I recommend it to my peers."
- "Excellent overview of alternative fuels; presenters were very knowledgeable in all areas"
- "On-line Mapping Tools will be a great resource to our fleet in implementing AFVs"
- "I now have the tools and contacts necessary to implement alternative fuels in our fleet."

**Registration is FREE but space is limited so watch for registration information this summer.**
