

2022 REGISTERED FACILITY ANNUAL REPORT

Construction and Demolition Debris Recovery Program

City and County of San Francisco

Environment Code Chapter 14; Ordinance No. 144-22; Regulation #SFE-06-05-CDO

Facility Name _____

Contact Name _____

Facility Address _____

Contact Email _____

Facility Phone No. _____

Contact Phone No. _____

Requirements:

- Report is due annually by **January 31st** of each year
- Reporting period shall cover the most recently completed calendar year (**January 1st to December 31st**)
- Report shall cover only construction and demolition materials received from San Francisco jobsites

Directions:

1. Complete Tables A, B, and C on page 2 of this document to report your facility’s incoming and outgoing tonnage of construction and demolition debris materials for this reporting period.
2. Provide responses in the “Additional Information” section on page 2 of this document, where applicable.
3. Use either Formula 1 or Formula 2 on page 3 of this document to calculate your facility’s Mixed Construction and Demolition Debris (Mixed C&D Debris) Recovery Rate.
4. Complete and sign the “Attestation” section on page 3 of this document.
5. Email the completed and signed document to debrisrecovery@sfgov.org or mail the document to:

San Francisco Environment Department
1155 Market Street, 3rd Floor
San Francisco, CA 94103
Attention: C&D Debris Recovery Program

Incoming Materials: Please complete Table A and Table B below to report the tonnage of incoming construction and demolition debris materials that the facility received from San Francisco jobsites during the reporting period.

Material Type	Tons
Mixed C&D Debris	A

Material Type	Tons	Material Type	Tons
#1. Wood		#7. Concrete	
#2. Green Waste		#8. Rock/Stone/Soil	
#3. Metal		#9. Cardboard	
#4. Drywall		#10. Plastic	
#5. Asphalt		#11. Carpet	
#6. Brick		#12. Other:	
TOTAL (sum of #1 to #12 above)		B	

Outgoing Materials: Please complete Table C below to report your facility's outgoing tonnage of construction and demolition debris materials by end destination type.

Material Type	Recycling Markets	Reuse	Compost	Biomass Conversion	ADC	Disposal (Residual)
Wood						
Metal						
Drywall						
Green Waste						
Asphalt						
Brick						
Concrete						
Rock/Stone/Soil						
Cardboard						
Rigid Plastics						
Carpet						
TOTALS	C	D	E	F	G	H

Mixed C&D Debris Recovery Rate Calculation:

Formula I: Use this formula if your facility tracks processed (outgoing) Mixed C&D Debris materials separately from source-separated materials.

$$\left(\frac{\text{C} + \text{D} + \text{E} + \text{F}^* + \text{G}^*}{\text{A}} \right) = \text{_____} \div \text{_____} = \text{_____} \times 100 = \text{_____} \%$$

Formula II: Use this formula if your facility commingles processed (outgoing) Mixed C&D Debris materials with source-separated materials.

$$\left(\frac{\text{C} + \text{D} + \text{E} + \text{F}^* + \text{G}^*}{\text{A} - \text{B}} \right) = \text{_____} \div \text{_____} = \text{_____} \times 100 = \text{_____} \%$$

***Note:** Material recovered through ADC and/or biomass conversion may be included in the Mixed C&D Debris Recovery Rate Calculation only if that qualifies as "Highest and Best Use" of these materials.

Additional Information:

1. If your facility generates ADC, state how the ADC is generated (e.g. screen fines, shredding, etc.) and the end destination(s) of ADC generated by the facility: _____

2. Identify materials that are converted to ADC and explain how material recovery through ADC and/or biomass conversion represents the "Highest and Best Use" of the material, if applicable:

3. List any landfills used for the disposal of non-recovered materials (residual):
1) _____ (2) _____ (3) _____

Attestation: By submitting this Annual Report, the facility owner/operator agrees to comply with the requirements of Environment Code Chapter 14 (Construction and Demolition Debris Recovery Ordinance).

I DECLARE UNDER PENALTY OF PERJURY UNDER THE LAWS OF THE STATE OF CALIFORNIA THAT THE FOREGOING IS TRUE AND CORRECT.
